

Staff Governor – Dagmara Sheffield

I am a Governor with over 19 years of experience having been a Parent Governor at different schools including First, Middle and High School.

I have been a Parent Governor at Trinity High for over 11 years.

I am a support staff governor at Woodfield (my son and daughter have previously attended Woodfield Academy). I was a parent governor before Woodfield Middle School became a Woodfield Academy.

I rejoined the Board of Governors at Woodfield in December 2021. Being a governor allows me to support the school and ensure it continues to provide a positive environment for children to learn.

My background is Science and Languages. I support EAL and SEND (special educational needs and disabilities) children. Being multilingual enables me to communicate with parents and children from many countries.

I am passionate about the best opportunities being given to all pupils regardless of their social background or heritage, hoping they will reach their potential.

My hobbies include reading, keeping in touch with my pen pals from around the world and learning new languages.
